EXECUTIVE SUMMARY

Strategic Technical Lead & Architect with 8+ years of expertise in orchestrating complex multiplayer systems, immersive XR experiences, and AI-driven 3D infrastructure. Proven track record of leading cross-functional teams to deliver polished, scalable web and gaming platforms. Expert in bridging the gap between Unity/XR platforms and Full-Stack Web architectures (React, Next.js, Node.js), engineering automated 3D reconstruction pipelines, and integrating advanced AI capabilities (Groq) into production. Passionate about solving complex system challenges and optimizing workflows.

PROFESSIONAL EXPERIENCE

Team Lead Manager / Technical Architect

IndiaNIC Infotech Limited | Aug 2024 — Present

- Orchestrated an end-to-end AI-driven 'Spatial Engine' that parses 2D architectural floorplans and builds manifold-compliant 3D layouts, handling collinear merging and closed room cycles.
- Engineered a Python-based 'Blender Bridge' to programmatically construct architectural meshes, dynamic lighting, and material mapping, reducing manual 3D modeling time by ~90%.
- Led the architectural modernization of the 'Spin Platform' (React/Next.js), refactoring core animation and navigation systems to resolve build-breaking technical debt and achieve smooth 60fps rendering.
- Successfully integrated Groq AI capabilities into production web environments with optimized API pipelines, enabling real-time AI-powered features with a 100% deployment success rate.
- Redesigned legacy game structures in high-traffic multiplayer titles (Ludo, 8-Ball Pool) into decoupled, modular controller architectures, improving code maintainability by 40%.
- Spearheaded AR/VR R&D prototypes for Apple Vision Pro and Meta Quest, establishing optimized design-to-deployment workflows and cross-platform publishing strategies.
- Drove the adoption of AI-assisted engineering tools (ChatGPT, Cursor, Windsurf) across the team, accelerating debugging cycles and feature delivery by 30%.

Project Manager

Artoon Solutions Pvt Ltd | Jul 2022 — Jul 2024

- Managed the complete development lifecycle and client delivery for major high-traffic mobile titles, leading a cross-functional team of 15+ developers and artists.
- Served as the primary technical liaison for global clients, handling requirement analysis, KPI tracking, budget evaluations, and tech-stack strategy.
- Successfully shipped high-profile partner projects including 'Sweep It Poker' (Gala Games), 'Hill Racing Multiplayer' (MPL), and 'Pool Multiplayer' (A23 & Dangal Games).

Senior Software Engineer

Artoon Solutions Pvt Ltd | May 2020 — Dec 2022

- Architected robust, real-time multiplayer systems using Photon, Mirror, and custom Socket.io integrations to support massive concurrent player loads.
- Engineered custom editor utilities, modular UI frameworks, and native plugins to optimize mobile CPU/GPU performance across lower-end devices.
- Mentored junior and mid-level Unity developers in SOLID design principles, clean architecture patterns, and structured debugging workflows.

Junior Unity 3D Developer

Escrow Infotech | Jun 2018 — May 2020

- Designed and implemented modular game UI/UX, specialized camera systems, and core gameplay mechanics for high-traffic titles like 'Kite Fly' and 'Indian Train Simulator'.
- Conducted research and system integrations for native mobile optimization, successfully lowering asset load times by 20%.

Junior Unity 3D Developer

DivineCreation Technologies | Dec 2016 — May 2018

- Developed multiplayer mechanics, optimized Unity 3D performance, and led small development teams.
- Conducted daily scrums, reviewed coding standards, and managed application publishing workflows to Apple App Store and Google Play.

Junior Android Developer

Lynkersoft Solutions | Mar 2016 — Aug 2016

- Developed Android-based native applications with a core focus on performance, robust UI design, and optimal user experiences.

TECHNICAL EXPERTISE

AI & 3D Eng: Blender API (Python), Spatial Topology Reconstruction, Unity (Expert), Unreal Engine, Groq AI

Full-Stack Web: React, Next.js, TypeScript, Node.js, RESTful APIs, CSS/SCSS, Tailwind CSS

Networking: Photon, Mirror, FishNet, Socket.io, Firebase, Real-Time Synchronization

AR/VR Platforms: Apple Vision Pro (visionOS), Meta Quest, Spatial Interaction Design, ARFoundation

Leadership & PM: Agile/Scrum, Resource Management, Client Strategy, Team Mentorship, AI-Assisted Dev Tools

EDUCATION

Master of Computer Applications (MCA)

Gujarat Technological University | 2014 – 2016

Bachelor of Computer Applications (BCA)

Saurashtra University | 2011 – 2014
